Work Experience

GI Pharma Middle East Fzco

Feb 2025 – Current

.Net Developer

Delhi

- Developed and maintained web applications using **ASP.NET Core** and **C#**.
- Worked extensively with **SQL Server**, **stored procedures**, and modules like **budget** and **overhead management**.
- Implemented frontend features using **JavaScript** and **AJAX**, while handling **debugging**, **performance optimization**, and **session management**.
- Created **ERP packages** for managing sales, budget, and overhead modules.

INTERNSHIP

C-DAC, Patna (Certificate)

Feb 2024 – August 2024

Full Stack Developer Intern

Patna, Bihar

- * Built government-funded projects such as CWPI Analytics and DAE dashboards, IGIMS, and BAU systems using **React.js**, **Tailwind CSS**, **MySQL**, **Node.js**, and integrated **Chart.js** for data visualization.
- * Implemented role-based routing and secure authentication in IGIMS using **Node.js**, **Express.js**, **LocalStorage**, **Context API**, and **Socket.io** for real-time status updates.
- * Enabled doctors to update patient check-up status in real-time with **Socket.io**, visible on department and general dashboards, and integrated a Google Calendar-like calendar for managing student data.

Babynama, GagaHealth (Certificate)

May 2023 – October 2023

Front End Developer Intern

Remote

- * Programmed babynama.com from scratch using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- * Successfully integrated **Payment APIs**, leading to a 20% increase in conversion rates and improving the website's functionality for a smoother and more efficient payment process for users.
- * Engineered 5+ reusable **ReactJS** components, reducing development time by 40% and boosting website performance by 15%.

SKILL

Languages: C++, C#, JavaScript, SQL

Frameworks: ASP.NET Core, React.js

Databases: SQL Server, MySQL

Tools: Git, GitHub, Linux

PROJECTS

Quickart | 🌐 | *MERN, TailwindCSS, Chart.js, Socket.io*

May 2024 – Sep 2024

- * Implemented **JWT**-based user authentication, profile management, and email password resets. Developed shopping cart with item management and "Save for Later."
- * Built product browsing with pagination, search, and filters. Integrated **Paytm** for secure payments and managed orders with email confirmations.
- * Created an admin dashboard for order, product, and user management. Enabled real-time customer support with **socket.io**.

Airline Reservation System Server | 🌐 | *TypeScript, Node.js, Sequelize*

Dec 2023 – Apr 2024

- * Led development of Flight Reservation System with a **REST API** following the **MVC** design pattern.
- * Utilized **Microservices**, **MySQL**, and **Sequelize** for modular design and efficient data management.
- * Addressed challenges such as seat selection and concurrent bookings, ensuring secure transactions.
- * Implemented **Cron jobs**, **RabbitMQ**, and notifications for a seamless user experience.
